

### Sorting – The Same

Draw a line indicating shapes that are the same

The worksheet displays two columns of geometric shapes for sorting. The left column contains, from top to bottom: a triangle, a pentagon, a circle, a parallelogram, a star, and a square. The right column contains, from top to bottom: a parallelogram, a star, a square, a pentagon, a triangle, and a circle. A diagonal line with an arrowhead at the bottom right connects the top-left triangle to the middle-right triangle. A large watermark 'www.k6math.com' is overlaid diagonally across the page.
